LL MANNER OF INVESTORS MAY find it profitable to consult with the INDIANA TRUST COMPANY; they who have charge of enterprises of various kinds, and all persons in their private capacity who have surplus funds or any sort of interest in an estate to be cared for.

The conservatism of an institution like this; its experience; its command of the avenues of safe and profitable investment: the nature of its organization, which gives it perpetual existence and hence uninterrupted management of all of its undertakings; the legal supervision under which it rests; its vast financial responsibility (\$2,000,000 in all) make available to its patrons advantages not otherwise to be secured.

Upon all manner of trusteeship or agency in affairs this company may be consulted free at any time, and its services secured whenever desired.

The New York weekly bank statement shows the following changes: Reserve, increase......\$1,011,400 Loans, decrease...... 1,914,200 Deposits, decrease...... 1,001,200

The banks now hold \$75,798,850 in excess of the requirements of the 25 per cent. rule. Total sales of stock amounted to 72,800 shares. With the exception of a brief period about 10:30 o'clock, when a fractional reaction occurred, the stock market, Saturday, was strong and the general tendency was toward higher prices. The volume of business, however, was light and the speculation was without important feature. Rumor mongers had for the once abandoned their vocation and the market was practically left to itself without the influence of good or evil report. A desire on the part of the shorts to cover their lines which they did not care to leave unprotected over Sunday was the leading motive of the purchasing movement, which sent prices upward. There was very little buying for the long account, and the foreign houses were not trading to any appreclable extent. Sugar was most active and recorded the greatest advance of the day, 1% per cent., General Electrics mov-ing up % and Lead %, the improvement in other industrials being trifling. The grangers, except Northwest, participated largely in the rise, Rock Island and Chicago, Burlington & Quincy each gaining 1, and St. Paul % per cent. Baltimore & Ohio shows an advance of 1/2 and the rest of the list 1/40% per cent., except Delaware, Lackawanna & Western and Wheeling & Lake Erie preferred, which lost 1% per cent., respectively. The market closed strong at about the best figures of the day. The movement for the week resulted generally in the establishment of a higher range on values, the principal advances being National Starch, 41/2; Pullman and Richmond Terminal preferred 4; General Electric, 3%; Burlington & Quincy, 31/2; St. Paul, 31/8; St. Paul preferred, 11/2; Rock Island, 23/4; Northwest, 11/4; Consolidated Gas and Iowa Central preferred, 3; Pittsburg, Cincinnati, Chicago & St. Louis, 21/2; Sugar and Manhattan, 21/4. and New York Central, Lake Erie & West-

Mobile & Ohio, 1 per cent. The railway and miscellaneous bond market was firm throughout the day, Northern Pacific and Montana firsts advancing 21/4; Savannah & Western firsts, 21/2; Richmond Terminal Trust receipts, nves, 112; Cincinnati, Dayton & Ironton fives, 14, and Missouri Pacific consol sixes, 1 per cent. Hocking Valley fives declined 11/8. Chicago, Burlington & Quincy sinking fund fives sold at 106%, against 108 on Nov. 19. Missouri Pa-cific seconds, extended, sold at 104, against 100 on Jan. 18. The principal changes on the week are a decline of 4 per cent. in Houston & Texas debenture sixes and advances of 11 per cent. in Cedar Rapids, lowa Falls Northern fives, 5% in Burlington & Quincy sinking fund fives, and 3 in Ohio Southern fours, St. Paul gold sevens and Erie funding fives. Government bonds were firm. State bonds

LOCAL GRAIN AND PRODUCE. The Best Week's Trade of 1894-Prices

in Most Lines Steady. The common remark on the wholesale streets yesterday was that it had been the best business week of the present year, and the increased business reached to Commission row. While trade was increased on Commission row considerably by sales of seed potatoes, onion sets and other seeds, in other lines more trade has been in progress, and no complaint has been heard on the part of the commission men of dull trade or slow collections for some days. Poultry, egg and butter markets are active, but in prices all are lower than at the beginning of the week. Provisions are moving better in a jobbing way, but not up to expectations. Prices are unsettled, and being downward in tendency, the retail men buy only to meet immediate needs. Dry-goods houses experienced a much better trade, but still the dry-goods men say there is large room for improvement. Wholesale confectioners speak of their trade as comparing very favorably with a year ago. Hardware men still report trade slow. With fron dealers it has improved some. Oranges and lemons both rule easy at quotations. Receipts of strawberries, tomatoes, cab-bages and cucumbers of Southern growth are on the increase, but selling yet at luxury prices.

The local grain market has been more active in the week ending March 3, as a result of the reduction in east-bound rates. Still, shippers and dealers are not doing the increased business which had been looked for by those who had for six weeks been hearing the same parties say if they had a 20-cent-per-100-pound rate, Chicago to New York basis, to work on, they would be doing something. Track bids yesterday ruled as follows: Wheat-No. 2 red, 55c; No. 3 red, 511/2c; rejected, 40@50c; wagon, 54c. Farm Labor.

Philadelphia Inquirer. Steady employment throughout the year is what is needed to procure and keep a trustworthy class of men to work on the farm. It is the fact that the farm only offers work for a few months, and those when it is least required for subsistence. and this drives the energetic and good hand to seek employment in the cities, where work will be continuous the year around. In the old days there was more winter manufacturing on the farm than is now possible. There are no more farmers who tan hides and make the leather into boots, and shoes, and harness. All these are put on the market so much cheaper and with so much better polish by the wholesale manufacturers that it is quite impossible for the home manufacturer, working on a small scale, to compete. There are still shoe repairers who are able to earn a living in cities, but they are often not so well paid as workers in large shops, and their number tends to decrease rather than increase. We have known some farmers to grow broom corn exclusively and manufacture at least a portion of their crop into brooms. This labor is not difficult to learn, and in this way, in certain neighborhoods, employment is given to large numbers of men, but the wages are not and cannot be very high. There is too much competition to allow the manufacture of brooms to be carried on during the winter, even on the farm, if high wages are paid, but if one or two farmers in a neighborhood should grow broom corn and manufacture and sell the products during the winter near home they might be able to get something better than wholesale prices, and so keep their men at work the whole year. Tals is a suggestion worth considering, difficult as it is becoming to procure and keep good farm help.

In hanging dresses away they should be suspended from two or three hooks, rather than one. This tends to keep them in shape, and also prevents the crushing of the dra-

WHEAT FELL A POINT

Chicago Bulls Discouraged by the Fine Outlook for the Crop.

Heavy Selling Orders from New York and London Contributed to Weakness in All the Pits.

CHICAGO, March 3.-Wheat was strong at the start, but weakened and closed 1/2c lower for May to-day. The prospects of a cold wave caused buying at the opening, but it was met by free sales. This and larger Northwestern receipts, easier cables and the mild and balmy weather, with a continuation of the selling, caused a %c decline, May closing at the bottom. May corn is 1/4c lower and May oats 1/4c lower. but provisions refused to share in the weakness of the grain markets and closed higher all around.

May wheat, which closed yesterday at

60c bid, started at 60%c on the prospects of a cold wave, but after some active trading at from that to 60% for a few minutes, it started on a decline, which lasted during the first hour and had by that time worked %c off the opening figures in c, becoming current for a moment or two before a noteworthy rally occurred. The very liberal exports of the week, amounting to 2,972,000 bushels in wheat and flour from both coasts, did not have any more than a very transitory effect on the wheat market at the opening. The weather is of the most promising character now, whatever it may have in store for the future, and the foreign markets still withhold encouragement to shippers. Liverpool was quoted quiet at 1/4d decline in the price of futures. The Northwestern receipts were, from a bull's point, discouragingly liberal, Minneapolis reporting 268 cars and Duluth 94, or 362 in all. A year ago these two places reported 384 cars. Chicago received only forty-six cars, compared with 201 last year. New York wired that foreigners were sellers of wheat there at the opening and here Schwartz, Dupee & Co. and other private wire houses were loaded with selling orders from outside, and swamped the people in unloading them who were provided with orders to buy. W. R. Linn let go freely, and among the local crowd the decline which followed a slight firmness at the opening was called "a Linn break." Trading was lively for half an hour. After recovering to 59% c on a little buying there was a return of weakness, and on the next slump there were plenty of sellers at 591/2c, with some transactions at 1-16c less. The closing quotation was at the bottom figures of the day. In corn there was a very moderate trade,

no noteworthy transactions occurring outside of fairly good buying by one of the houses which sold quite freely on yester-day's advances. An easier feeling prevailed and prices ruled lower. The re-ceipts to-day were large and the weather fine. Liberal arrivals are expected Monday and Tuesday, which, together with the action of wheat, caused prices to recede 40%c from the opening figure, the market afterwards rallying a fraction, and closing with May but 1/3c from the bottom.
There was an easier feeling in oats, with a moderate trade. The decline of \\@\4c was due chiefly to sympathy with wheat and corn, as the pressure to sell was not large. May closed at the bottom figures of the day.

Provisions opened strong and higher for pork and ribs and steady and unchanged for lard on a much lighter run of live hogs at the yards than estimated. The weakness developed in wheat caused a decline, with the gain at the opening lost. It was also contributed to on some selling of pork by one of the packing institutions and the unloading of some long stuff by Helmholz. A steady feeling subsequent-ly prevailed on a little support being afforded the market presumably in the interest of the packing company, but there was very little trading. A little easiness was developed shortly before the end of the session, the market closing steady, however, for pork and lard, and firm for ribs. Compared with last night, May pork is 21/2c higher; May lard, .021/2c higher, and May ribs, .071/2c higher. Estimated receipts for Monday are: Wheat, 50 cars; corn, 550 car; oats, 250 cars;

hogs, 29,000 head. Leading futures ranged as follows: Open- High- Low- Clos-Articles. est. TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore and Other Points.

MINNEAPOLIS, March 3. - To-day's wheat receipts were 268 carloads; ship-ments, 24 carloads. The opening was very quiet, at about the price of the closing yesterday. Prices advanced a fraction after the start, but there was more wheat offered for sale than the demand called for. Prices of futures sagged about 1/4c, followed by light fluctuations, closing as follows: March, 58½c; May, 58c; July, 59½c; on track, No. 1 hard, 62c; No. 1 Northern, 60c; No. 2 Northern, 58½c. There was a decrease in local supplies of 526,000 bushels for the week. There is a large premium still for cash wheat above the May price, ranging about 2c above for track delivery and 24c above when switched to the mills. The premium on cash wheat above May has brought a premium on March also above May, and the present month to-day sold 1/2c above the May price. Track prices were also about 1/2 %c above July. Facent flour sales were reported at \$3.40@3.60, while some millers are asking \$3.65; bakers were quoted at \$1.70@1.90.

Sorghum for Hay.

A. D. Arnold, in Kansas Farmer. In the past few years great numbers of Western cattle have been brought into central Kansas to be wintered and fattened the following season for the Eastern markets, hence the importance of the question: "What is the best forage plant to grow for them?"

The opinion of all the farmers and stockmen that have tried it seems to be in favor of sorghum. The seasons here are never too dry to grow a good erop on any of our upland farms. One man says he has seventy tons splendid feed, cut from ten acres of land. A stockman says he kept well three hundred full-grown steers three months on forty acres cane grown on light The best way for growing it seems to be

to plow and harrow the land thoroughly, Then, any time in May, sow with a drill one and a half or two bushels of seed per acre. The more seed used the better quality and more easily handled will be the hay. The proper time for curting is when the seed is in the dough state, as then the fulce remains sweet. After being out two or three days (not longer) it should be raked and put into small ricks of from ten to fifteen hundred pour is each, where it may remain until needed for the stoom. Last senson I raised eighty acres for said, and now have 400 steers wintering on the stocks, which I sold at \$5.50 per acre. Also threshed 1,600 bushels seed. I had out large pieces of wheat, rye, oats and flax, not one of which hald for hervesting on account of the drought. Have made money every year that I raised food

for stockmen. Silver used on the table should be wiped each day with a soft champis, Siver hacomes clouded as much from the steam of coffee, tea and hot foods generally as from actual use, and the daily polishing keeps it in good condition.
